REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

Claim 1 is allowable for the reasons set forth in the amendment filed September 29, 2005. Specifically, the claim has been amended to recite the limitations of claim 2, a detention member, and that the detention portion restricts the expansion of the stop ring when the canceller is in a position in which it is stopped by the step portion. Claims 3, 5, and 6 have been amended to recite combinations that were deemed allowable in the Office Action mailed March 29, 2005. New claim 9 recites the combination of a multiple disc clutch, a clutch plate set, an oil pressure piston, a canceler, and a detention structure. Of particular patentable significance are the specifics of the axial movement of the canceler and the specifics of the position of the detention structure. The resulting combinations are not shown or taught by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
